# EcoSavers® Fridge/Freezer Thermometer Stainless Steel

# ECOSAVERS®

The EcoSavers® Fridge/Freezer Thermometer is a high quality thermometer which can accurately measure the temperature of your fridge or freezer.

This thermometer is made of stainless steel so is guaranteed to give many years of reliable and accurate operation.

By using the right temperature in your fridge or freezer you can save energy and save money.

Simply put the thermometer into the fridge or freezer (standing and hanging positions are possible) and check the temperature on the large 'easy to read' display. Adjust the fridge or freezer to the optimum setting.

Save energy today with the products from EcoSavers!
